Broaden Your Forecourt Offer With LPG

There's no denying the demand for energy is diverging into clean fuels and new energies. At Dover Fueling Solutions® (DFS), we're taking steps to offer our leading technology in a product portfolio that cover the same wide range of clean fuels.

Engineered to deliver liquefied petroleum gas (LPG), the brand-new Tokheim Quantum® FS LPG dispenser is unobtrusive and uncomplicated, yet powerful and efficient. Built with precision and flexibility in mind, this dispenser might be the missing element that you, as a forecourt owner, have been looking for.

What's not to love? It's flexible, small and will diversify your forecourt's fuel offering to motorists.

It's time to fuel the future with the Quantum® FS LPG dispenser.

Compact, Low-Carbon Fueling

Truly Flexible

The Quantum® FS LPG dispenser is perfect for small retail and commercial fleet environments, with a durable and compact footprint to suit the layout of your forecourt, no matter its size. This dispenser is truly flexible, meaning that you can configure the features you need for a perfect match to your needs.

Strong and Sturdy

Tokheim® dispensers are renowned for their trusted and reliable quality — and the Quantum® LPG dispenser is by no means an exception. It's sturdy and has a strong framework, comes with high-quality components and robust corrosion protection materials offering long-lasting performance.

Reliable Performance

No matter the conditions or high throughput, the robust Quantum® FS LPG dispenser does its job, and it does it incredibly well. Engineered with accurate field-proven meter technology, staple electronics and robust hydraulic system for excellent reliability and performance.

Engineering Excellence

The Quantum® FS LPG dispenser has been engineered for perfection. It is built to last and requires less maintenance for a long-life with low total cost of ownership. Be one of the first to invest in this dispenser and you won't look back — not for a second.
